Independent Auditors' Report

To the Board of Directors of NEOUSYS TECHNOLOGY INC.:

Opinion

We have audited the consolidated financial statements of NEOUSYS TECHNOLOGY INC. and its subsidiaries ("the Group"), which comprise the consolidated balance sheet as of December 31, 2023 and 2022, the consolidated statement of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of material accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2023 and 2022, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the International Financial Reporting Standards ("IFRSs"), International Accounting Standards ("IASs"), Interpretations developed by the International Financial Reporting Interpretations Committee ("IFRIC") or the former Standing Interpretations Committee ("SIC") endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

1. Revenue recognition

Please refer to note 4(n) "Revenue recognition" for accounting policy related to revenue recognition, and note 6(o) "Revenue from contracts with customers" for disclosure information about revenue recognition of the consolidated financial statements.

Description of key audit matter:

The main revenue of the Group comes from the researching, development, production, and sale of thermal components in the computer and related industries. Since products are highly customized, the revenue recognition is concerned by the users or receiver of the financial statements, the test for revenue recognition is a highly concerned matter when we comply the audit procedure for the financial statements of the Group.

How the matter was addressed in our audit:

Our principal audit procedures included obtaining the list of top-ten customers and newly-added customers for the current year to analyze whether there is an unusual situation or not, inspecting of significant new contracts and understanding terms and conditions to assess whether there are any significant abnormalities, assessing the appropriateness of accounting policies for revenue recognition (including sales returns and discounts), testing the effectiveness of the design and the implementation of internal controls of sales and performing the sales cut-off test on the period before and after the balance sheet date, to ensure sales are recognized in the appropriate accounting period.

2. Valuation of inventories

Please refer to Note 4(h), Note 5(a), and Note 6(d) for accounting policies, uncertainty of accounting estimates and assumptions, as well as related disclosures for inventory valuation, respectively.

Description of key audit matter:

The Group calculated and recognized an inventory market price decline loss by using the lower of cost or the net realizable value method, taking into consideration the technological environment of industrial computers, wherein the impact on the rapid change and the characteristics of both the industry, and a large number of materials and parts, may result in a risk on the net realizable value to be lower than the book value, in which the accounting estimate of the loss of inventory allowance against the decline price requires the subjective judgment of the management that is highly uncertain. Therefore, we considered the valuation of inventories as one of our key audit matters.

How the matter was addressed in our audit:

Our principal audit procedures included inspecting the write-down of inventories to ensure the forementioned loss allowances have been recognized pursuant to relevant standards; assessing the correctness of aging inventories and analyzing the variations in the corresponding period; evaluating the appropriateness of inventory valuation policies to ensure the process of inventory valuation is in conformity with the accounting policies; comparing the previous assessment of inventory impairment loss with the actual obsolescence losses to ensure the reasonableness of the inventory valuation; as well as assessing whether the disclosure of provision for inventory valuation is appropriate.

Other Matter

NEOUSYS TECHNOLOGY INC. has prepared its parent-company-only financial statements as of and for the years ended December 31, 2023 and 2022, on which we have issued an unmodified opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IFRSs, IASs, IFRC, SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (the supervisors) are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Kuo, Hsin-Yi and Ko, Hui-Chih.

KPMG

Taipei, Taiwan (Republic of China) March 13, 2024

Notes to Readers

The accompanying consolidated financial statements are intended only to present the consolidated financial position, financial performance and cash flows in accordance with the accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.

The independent auditors' report and the accompanying consolidated financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of the English and Chinese language independent auditors' report and consolidated financial statements, the Chinese version shall prevail.

Notes to the Consolidated Financial Statements
For the years ended December 31, 2023 and 2022

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

(1) Company history

NEOUSYS TECHNOLOGY INC. (the "Company"). was incorporated in July 9, 2010 as a company limited by shares under the approval of Ministry of Economic Affairs. Its registration address is 15F., No. 868-3, Zhongzheng Rd., Zhonghe Dist., New Taipei City, Taiwan (R.O.C.). The consolidated financial statements comprise the Company and its subsidiaries (together referred to as the "Group" and individually as "Group entities"). The main business activities of the Company are the manufacturing, processing and trading of industrial control products, computer applications and industrial computers.

(2) Approval date and procedures of the consolidated financial statements:

These consolidated financial statements were authorized for issue by the Board of Directors on March 13, 2024.

(3) New standards, amendments and interpretations adopted:

(a) The impact of the International Financial Reporting Standards ("IFRSs") endorsed by the Financial Supervisory Commission, R.O.C. which have already been adopted.

The details of impact on the Group's adoption of the new amendments beginning January 1, 2023 are as follows:

(i) Amendments to IAS 12 "Deferred Tax related to Assets and Liabilities arising from a Single Transaction"

The amendments narrowed the scope of the recognition exemption so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Group may need to recognize equal deferred income tax assets and deferred income tax liabilities. The application of the amendments resulting in deferred tax assets, deferred tax liabilities and retained earnings to increase by \$2,511 thousand, \$2,470 thousand and \$41 thousand on January 1, 2022, and \$3,490 thousand, \$3,444 thousand and \$46 thousand on December 31, 2022. An decrease of \$5 thousand in income tax expenses for the years ended December 31, 2022. There is no impact on basic and diluted earnings per share and the cash flows in the said period.

In addition, if the Group had applied its previous accounting policy, the deferred tax assets, deferred tax liabilities and retained earnings would be decreased by \$2,354 thousand, \$2,278 thousand and \$76 thousand, respectively, on December 31, 2023. The income tax expenses increased by \$31 thousand for the years ended December 31, 2023. There is no impact on basic and diluted earnings per share and the cash flows in the said period.

Notes to the Consolidated Financial Statements

(ii) Other amendments

The following amendments are not expected to have a significant impact on the Group's consolidated financial statements.

- Amendments to IAS 1 "Disclosure of Accounting Policies"
- Amendments to IAS 8 "Definition of Accounting Estimates"

The Group has initially adopted the new amendment, which do not have a significant impact on its consolidated financial statements, from May 23, 2023:

- Amendments to IAS 12 "International Tax Reform—Pillar Two Model Rules"
- (b) The impact of IFRS issued by the FSC but not yet effective

The Group assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2024, would not have a significant impact on its consolidated financial statements:

- Amendments to IAS 1 "Classification of Liabilities as Current or Non-current"
- Amendments to IAS 1 "Non-current Liabilities with Covenants"
- Amendments to IAS 7 and IFRS 7 "Supplier Finance Arrangements"
- Amendments to IFRS 16 "Lease Liability in a Sale and Leaseback"
- (c) The impact of IFRS issued by IASB but not yet endorsed by the FSC

The Group does not expect the following new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its consolidated financial statements:

- Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture"
- IFRS 17 "Insurance Contracts" and amendments to IFRS 17 "Insurance Contracts"
- Amendments to IFRS 17 "Initial Application of IFRS 17 and IFRS 9 Comparative Information"
- Amendments to IAS21 "Lack of Exchangeability"

Notes to the Consolidated Financial Statements

(4) Summary of material accounting policies:

The material accounting policies presented in the consolidated financial statements are summarized below. Except for those specifically indicated, the following accounting policies were applied consistently throughout the periods presented in the consolidated financial statements.

(a) Statement of compliance

These consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (hereinafter referred to as "the Regulations") and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations endorsed and issued into effect by the Financial Supervisory Commission, R.O.C..

(b) Basis of preparation

(i) Basis of measurement

The consolidated financial statements have been prepared on a historical cost basis.

(ii) Functional and presentation currency

The functional currency of each Group entity is determined based on the primary economic environment in which the entity operates. The consolidated financial statements are presented in New Taiwan Dollar (NTD), which is the Company's functional currency. All financial information presented in NTD has been rounded to the nearest thousand.

(c) Basis of consolidation

(i) Principles of preparation of the consolidated financial statements

The consolidated financial statements comprise the Company and subsidiaries. Subsidiaries are entities controlled by the Group. The Group 'controls' an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases. Intragroup balances and transactions, and any unrealized income and expenses arising from intragroup transactions are eliminated in preparing the consolidated financial statements. The Group attributes the profit or loss and each component of other comprehensive income to the owners of the parent and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

The Group prepares consolidated financial statements using uniform accounting policies for like transactions and other events in similar circumstances.

Notes to the Consolidated Financial Statements

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received will be recognized directly in equity, and the Group will attribute it to the owners of the parent.

(ii) List of subsidiaries in the consolidated financial statements

			Shareh	olding	
Name of			December 31,	December 31,	
investor	Name of subsidiary	Principal activity	2023	2022	Note
The Company	Neousys Technology America Inc.	Sale of industrial computers	100 %	100 %	
The Company	INNOVATION PATH INT'L LTD.	General investing	100 %	100 %)
INNOVATION PATH INT'L LTD.	SYSTEM INNOVATION ENTERPRISE LTD.	General investing	100 %	100 %)
SYSTEM INNOVATION ENTERPRISE LTD	Shanghai Neousys Technology Co., Ltd.	Sale of industrial computers	100 %	100 %	•

(iii) Subsidiaries excluded from the consolidated financial statements: None.

(d) Foreign currencies

(i) Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of Group entities at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period, monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date.

Non-monetary items denominated in foreign currencies that are measured at fair value are translated into the functional currencies using the exchange rate at the date that the fair value was determined. Non-monetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of the transaction.

Exchange differences are generally recognized in profit or loss, except for those differences relating to the following, which are recognized in other comprehensive income:

- 1) an investment in equity securities designated as at fair value through other comprehensive income;
- 2) a financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; or
- 3) qualifying cash flow hedges to the extent that the hedges are effective.

(ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into the presentation currency at the exchange rates at the reporting date. Excluding foreign operations in hyperinflationary economies, the income and expenses of foreign operations, are translated into the presentation currency at the average exchange rate. Exchange differences are recognized in other comprehensive income.

Notes to the Consolidated Financial Statements

When a foreign operation is disposed of such that control, significant influence, or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Group disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interests. When the Group disposes of only part of its investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

When the settlement of a monetary receivable from or payable to a foreign operation is neither planned nor likely to occur in the foreseeable future. Exchange differences arising from such a monetary item that are considered to form part of the net investment in the foreign operation are recognized in other comprehensive income.

(e) Classification of current and non-current assets and liabilities

An asset is classified as current under one of the following criteria, and all other assets are classified as non-current.

- (i) It is expected to be realized, or intended to be sold or consumed, in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is expected to be realized within twelve months after the reporting period; or
- (iv) The asset is cash or a cash equivalent (as defined in IAS 7) unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current under one of the following criteria, and all other liabilities are classified as non-current.

- (i) It is expected to be settled in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is due to be settled within twelve months after the reporting period; or
- (iv) The Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by issuing equity instruments do not affect its classification.

(f) Cash and cash equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes should be recognized as cash equivalents.

Notes to the Consolidated Financial Statements

(g) Financial instruments

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

(i) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

On initial recognition, a financial asset is classified as measured at: amortized cost; Fair value through other comprehensive income (FVOCI) – debt investment; FVOCI – equity investment; or FVTPL. Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

1) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

2) Fair value through other comprehensive income (FVOCI)

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Notes to the Consolidated Financial Statements

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an instrument-by-instrument basis.

Debt investments at FVOCI are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in other comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income are reclassified to profit or loss.

Equity investments at FVOCI are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income and are never reclassified to profit or loss.

Dividend income is recognized in profit or loss on the date on which the Group's right to receive payment is established.

3) Impairment of financial assets

The Group recognizes loss allowances for expected credit losses (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, amortized costs, trade receivables and notes receivable, other receivables, leases receivable, guarantee deposit paid and other financial assets), debt investments measured at FVOCI and contract assets.

The Group measures loss allowances at an amount equal to lifetime ECL, except for the following which are measured as 12-month ECL:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowance for trade receivables and contract assets are always measured at an amount equal to lifetime ECL.

Lifetime ECL are the ECL that result from all possible default events over the expected life of a financial instrument.

12-month ECL are the portion of ECL that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

Notes to the Consolidated Financial Statements

The maximum period considered when estimating ECL is the maximum contractual period over which the Group is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Group's historical experience and informed credit assessment as well as forward-looking information.

The Group considers a debt security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of 'investment grade which is considered to be BBB- or higher per Standard & Poor's, Baa3 or higher per Moody's or twA or higher per Taiwan Ratings'.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Group considers a financial asset to be in default when the financial asset is more than 180 days past due or the debtor is unlikely to pay its credit obligations to the Group in full.

ECL are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive). ECL are discounted at the effective interest rate of the financial asset.

At each reporting date, the Group assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 90 days past due;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- it is probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for a security because of financial difficulties.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is charge to profit or loss and is recognized in other comprehensive income instead of reducing the carrying amount of the asset.

Notes to the Consolidated Financial Statements

The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For corporate customers, the Group individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

4) Derecognition of financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognized in its statement of balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

(ii) Financial liabilities and equity instruments

1) Classification of debt or equity

Debt and equity instruments issued by the Company are classified as financial liabilities or equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2) Equity instrument

An equity instrument is any contract that evidences residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognized as the amount of consideration received, less the direct cost of issuing.

3) Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

Notes to the Consolidated Financial Statements

4) Derecognition of financial liabilities

The Group derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount of a financial liability extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

5) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount presented in the statement of balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

(h) Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories is calculated using the weighted average method, and includes expenditure incurred in acquiring the inventories, production or conversion costs, and other costs incurred in bringing them to their present location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

(i) Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

(ii) Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

Notes to the Consolidated Financial Statements

(iii) Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

1) machinery 1~3 years

2) office equipment 1~3 years

3) leasehold improvement 1~3 years

4) other equipment 1-3 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(i) Leases

At the inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(i) As a lease

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Notes to the Consolidated Financial Statements

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

- there is a change in future lease payments arising from the change in an index or rate; or
- there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee; or
- there is a change in the lease term resulting from a change of its assessment on whether it will exercise an option to purchase the underlying asset, or
- there is a change of its assessment on whether it will exercise a extension or termination option; or
- there is any lease modifications

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Group accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Group presents right-of-use assets that do not meet the definition of investment and lease liabilities as a separate line item respectively in the statement of financial position.

The Group has elected not to recognize right-of-use assets and lease liabilities for short-term leases of machinery. The Group recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

(k) Intangible assets

(i) Recognition and measurement

Other intangible assets, that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses.

Notes to the Consolidated Financial Statements

(ii) Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in profit or loss as incurred.

(iii) Amortization

Amortization is calculated over the cost of the asset, less its residual value, and is recognized in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill, from the date that they are available for use.

The estimated useful lives for current and comparative periods are as follows:

1) Computer software cost

1~5 years

The residual value, amortization period, and amortization method for an intangible asset with a finite useful life shall be reviewed at least annually at each fiscal year end. Any changes shall be accounted for as changes in accounting estimates.

(1) Impairment of non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than inventories, contract assets, deferred tax assets and investment properties and biological assets, measured at fair value, less costs) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognized in profit or loss.

At each reporting date, the Group reviews the accumulated impairment of its non-financial assets to determine whether there is any indication of reversal of impairment. If any such indication that the asset's recoverable amount is changed exists, the impairment loss will be reversed. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

(m) Provisions

A provision is recognized if, as a result of a past event, the Group has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

Notes to the Consolidated Financial Statements

A provision for warranties is recognized when the underlying products or services are sold, based on historical warranty data and a weighting of all possible outcomes against their associated probabilities.

(n) Revenue recognition

(i) Revenue from contracts with customers

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring goods or services to a customer. The Group recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Group's main types of revenue are explained below.

1) Sale of goods

The Group recognizes revenue when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

No element of financing is deemed present as the sales of goods are made with a credit term of 60 days, which is consistent with the market practice.

The Group reduces revenue by the amount of expected returns and recognizes a refund liability. Accumulated experience is used to estimate such returns at the time of sale at a portfolio level (expected value method). Because the number of products returned has been steady for years, it is highly probable that a significant reversal in the cumulative revenue recognized will not occur. At each reporting date, the Group reassesses the estimated amount of expected returns.

The Group's obligation to provide a refund for faulty goods under the standard warranty terms is recognized as a provision for warranty.

A receivable is recognized when the goods are delivered as this is the point in time that the Group has a right to an amount of consideration that is unconditional.

2) Financing components

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

Notes to the Consolidated Financial Statements

(o) Employee benefits

(i) Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in future payments is available.

(ii) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognized for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

(p) Share-based payment

The grant-date fair value of equity-settled share-based payment arrangements granted to employees is generally recognized as an expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognized as an expense is adjusted to reflect the number of awards for which the related service and non-market performance conditions are expected to be met, such that the amount ultimately recognized is based on the number of awards that meet the related service and non-market performance conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant-date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

The grant date of a share-based payment is the date which the board of directors authorized the price and number of a share-based payments.

(q) Income taxes

Income taxes comprise current taxes and deferred taxes. Except for expenses related to business combinations or recognized directly in equity or other comprehensive income, all current and deferred taxes are recognized in profit or loss.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Notes to the Consolidated Financial Statements

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities at the reporting date and their respective tax bases. Deferred taxes are recognized except for the following:

- (i) temporary differences on the initial recognition of assets and liabilities in a transaction that is not a business combination and at the time of the transaction (i) affects neither accounting nor taxable profits (losses) and (ii) does not give rise to equal taxable and deductible temporary differences;
- (ii) temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- (iii) taxable temporary differences arising on the initial recognition of goodwill.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date, and reflect uncertainty related to income taxes, if any.

Deferred tax assets and liabilities are offset if the following criteria are met:

- (i) the Group has a legally enforceable right to set off current tax assets against current tax liabilities; and
- (ii) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
 - 1) the same taxable entity; or
 - 2) different taxable entities which intend to settle current tax assets and liabilities on a net basis, or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Deferred tax assets are recognized for the carry forward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realized; such reduction are reversed when the probability of fucture taxable profits improves.

(r) Earnings per share

The Group discloses the Company's basic and diluted earnings per share attributable to ordinary shareholders of the Company. Basic earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding. Diluted earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding after adjustment for the effects of all potentially dilutive ordinary shares.

Notes to the Consolidated Financial Statements

(s) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Group). Operating results of the operating segment are regularly reviewed by the Group's chief operating decision maker to make decisions about resources to be allocated to the segment and to assess its performance. Each operating segment consists of standalone financial information.

(5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty:

In preparing these consolidated financial statements, management has made judgments, estimates, and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income, and expenses. Actual results may differ from these estimates.

The management continues to monitor the accounting estimates and assumptions. The management recognizes any changes in accounting estimates during the period and the impact of those changes in accounting estimates in the following period.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in amaterial adjustment within the next financial year is as follows:

(a) The valuation of inventory

Inventories are stated at the lower of cost or net realizable value. The Group estimates the net realizable value of inventory for normal waste, obsolescence and unmarketable items at the end of reporting period and then writes down the cost of inventories to net realizable value. The net realizable value of the inventory is determined mainly based on the assumptions of future demand within a specific time horizon. For the estimation of the valuation of inventory, please refer to note 6(d).

(6) Explanation of significant accounts:

(a) Cash and cash equivalents

	De	cember 31, 2023	December 31, 2022
Cash on hand	\$	82	84
Demand deposits		480,857	458,301
Cash and cash equivalents in the consolidated statement of cash flows	\$ <u></u>	480,939	458,385

Please refer to note 6(r) for the interest rate risk and sensitivity analysis of the financial assets and liabilities of the Group.

(b) Financial assets measured at amortized cost

	December 31, 2023	December 31, 2022
Deposit account	\$ <u>82,904</u>	
		(Continued)

Notes to the Consolidated Financial Statements

The Group has assessed that the abovementioned financial assets are held-to-maturity to collect contractual cash flows, which consist solely of payments of principal and interest on principal amount outstanding. Therefore, these investments were classified as financial assets measured at amortized cost.

The Group held bank deposit with variable interest rates, with the weighted average interest rates of 4.88% and 5.4% during the year ended December 31, 2023, respectively. The bank deposit mature in 6 months and 10 months, respectively, after the reporting date.

(c) Accounts receivable, net

	De	ecember 31, 2023	December 31, 2022
Accounts receivable	\$	62,587	90,578
Less: Loss allowance		(2,693)	(14,269)
Accounts receivable, net	\$	59,894	76,309

The Group applies the simplified approach to provide for its expected credit losses, i.e. the use of lifetime expected loss provision for all receivables. To measure the expected credit losses, accounts receivables have been grouped based on shared credit risk characteristics and the days past due, as well as the incorporated forward-looking information. The loss allowance provisions in Taiwan were determined as follows:

	 December 31, 2023				
	Gross carrying amount	Weighted- average loss rate	Loss allowance provision		
Current	\$ 43,703	2.837%	1,240		
1 to 30 days past due	17,067	5.707%	974		
31 to 90 days past due	1,543	15.23%	235		
91 to 180 days past due	193	84.46%	163		
More than 180 days past due	 81	100%	81		
	\$ 62,587		2,693		

		December 31, 2022				
		Gross carrying amount	Weighted- average loss rate	Loss allowance provision		
Current	\$	52,412	2.427%	1,272		
1 to 30 days past due		20,686	5.153%	1,066		
31 to 90 days past due		7,070	28.18%	1,992		
91 to 180 days past due		1,431	67.09%	960		
More than 180 days past due	_	8,979	100%	8,979		
	\$ _	90,578		14,269		
				(m		

(Continued)

Notes to the Consolidated Financial Statements

The movement in the allowance for accounts receivable were as follows:

	 2023	2022
Balance at January 1	\$ 14,269	4,398
Impairment losses (reversal) recognized	(11,507)	11,210
Amounts written off	-	(1,420)
Foreign exchange (losses) gains	 (69)	81
Balance at December 31	\$ 2,693	14,269

As of December 31, 2023 and 2022, the aforementioned accounts receivables of the Group had not been pledged as collateral.

For further credit risk information, please refer to note 6(r).

(d) Inventories

	Dec	ember 31, 2023	December 31, 2022
Raw materials	\$	104,766	160,065
Work in progress		76,019	91,542
Finished goods		38,933	55,292
	\$	219,718	306,899

Operating costs for inventory related expenses and losses recognized for the years ended December 31, 2023 and 2022, were as follows:

	 2023	2022
Cost of selling inventory	\$ 595,171	706,346
(Reversal of write-downs)write-down of inventories	(2,557)	34,272
Losses on inventory scrap	 6,688	5,327
Operating costs	\$ 599,302	745,945

As of December 31, 2023 and 2022, the aforementioned inventory of the Group had not been pledged as collateral.

Notes to the Consolidated Financial Statements

(e) Property, plant and equipment

The cost and depreciation of the property, plant and equipment of the Group for the years ended December 31, 2023 and 2022, were as follows:

	Ma	chinery	Office equipment	Leasehold improvement	Other equipment	Total
Cost:						
Balance on January 1, 2023	\$	5,357	2,811	8,642	647	17,457

(h) Other current assets and other non-current assets

The other current assets others and other non current assets of the Group were as follows:

	December 31, 2023	December 31, 2022
Restricted assets	\$ 50	500
Other financial assets	147,38	4 -
Refundable deposits	5,492	2 5,507
Prepayment for equipment	-	1,480
Others	324	41
	\$ <u>153,70</u>	7,488
	\$ 148,20	501
Current	5,492	2 6,987
Non-current	\$153,70	7,488

Other financial assets are mainly buyback bonds that do not meet the definition of cash and cash equivalent; and restricted assets are mainly fixed deposits with pledges. Please refer to note 8.

(i) Lease liabilities

Group's lease liabilities were as follow:

	Dec	ember 31, 2023	December 31, 2022
Current	\$	18,543	11,511
Non-current	\$	30,165	18,180
For the maturity analysis, please refer to note 6(r).			
The amounts recognized in profit or loss were as follows:			
		2023	2022
Interest on lease liabilities	\$	1,083	436
Expenses relating to leases of low-value assets	\$	1,799	367

(Continued)

Notes to the Consolidated Financial Statements

The amounts recognized in the statement of cash flows for Group was as follows:

 Z023
 Z022

 Total cash outflow for leases
 \$ 21,994
 17,120

(i) Real estate leases

The Group leases land and buildings for its office space. The leases of office space typically run for a period of 2 to 3 years.

(ii) Other leases

The Group leases office equipment such as photocopiers, which are leases of low-value items. The Group elects to apply the exemption from recognition and does not recognize the related right-of-use assets and lease liabilities for these leases.

(j) Employee benefits

(i) Defined contribution plans

The Group allocates 6.00% of each employee's monthly wages to the labor pension personal account at the Bureau of Labor Insurance in accordance with the provisions of the Labor Pension Act. Under these defined contribution plans, the Group allocates a fixed amount to the Bureau of Labor Insurance without additional legal or constructive obligation.

The domestic companies of the Group which pension costs incurred from the contributions to the Bureau of the Labor Insurance amounted to \$7,277 thousand and \$6,480 thousand for the years ended December 31, 2023 and 2022, respectively.

The overseas subsidiaries of the Group which pension costs recognized in accordance with local government regulations amounted to \$3,469 thousand and \$1,546 thousand for the years ended December 31, 2023 and 2022, respectively.

(k) Income taxes

(i) Income tax expense

The components of income tax in the years 2023 and 2022 were as follows:

	 2023	2022
Current tax expense	\$ 32,020	61,262
Deferred tax benefit	 (1,409)	(3,805)
Income tax expense	\$ 30,611	57,457

2022

2022

Notes to the Consolidated Financial Statements

Reconciliation of income tax and profit before tax for 2023 and 2022 is as follows.

		2023	2022
Profit excluding income tax	\$	135,472	235,714
Income tax using the Company's domestic tax rate	\$	27,094	47,143
Effect of tax rates in foreign jurisdiction		648	9,374
The amount of foreign tax deduction has exceeded the maximum limit		1,553	-
Over-estimation from prior periods		(188)	(5)
Additional tax on undistributed earnings		1,504	945
Total	\$	30,611	57,457

(ii) Deferred tax assets and liabilities

1) Recognized deferred tax assets and liabilities

Changes in the amount of deferred tax assets and liabilities for 2023 and 2022 were as follows:

Deferred Tax Liabilities:

	Investment income recognized under equity method		
Balance at January 1, 2023	\$	6,515	
Recognized in profit or loss		(4,237)	
Balance at December 31, 2023	\$	2,278	
Balance at January 1, 2022	\$	3,444	
Recognized in profit or loss		3,071	
Balance at December 31, 2022	\$	6,515	

Deferred Tax Assets:

Allowance fo inventory valua and obsolescer losses		tory valuation obsolescence	Unrealized gain from downstream transaction	Unrealized foreign exchange loss	Others	Total
Balance at January 1, 2023	\$	11,955	6,243	634	4,228	23,060
Recognized in profit or loss		1,153	(3,652)	853	(1,182)	(2,828)
Balance at December 31, 2023	\$	13,108	2,591	1,487	3,046	20,232
Balance at January 1, 2022	\$	6,870	5,000	229	4,085	16,184
Recognized in profit or loss		5,085	1,243	405	143	6,876
Balance at December 31, 2022	\$	11,955	6,243	634	4,228	23,060

Notes to the Consolidated Financial Statements

2) Unrecognized deferred tax liabilities

The Group is able to control the timing of the reversal of the temporary differences associated with investments in subsidiaries as of December 31, 2023 and 2022. Also, the management considers it probable that the temporary differences will not reverse in the foreseeable future. Hence, such temporary differences are not recognized under deferred tax liabilities as follows:

	December 31, 2023		December 31, 2022	
Temporary differences associated with investments in subsidiaries	\$	121,953	91,136	
Unrecognized deferred tax liabilities	\$	24,391	18,227	

(iii) Assessment of tax

The Company's tax returns for the years through 2021 were assessed by the R.O.C. tax authority.

(1) Capital and other equity

(i) Ordinary shares

As of December 31, 2023 and 2022, the Group's authorized capital both amounted to \$500,000 thousand. In addition, the Group issued 25,559 thousand and 22,636 thousand shares ordinary shares, with a par value of \$10 per share, amounting to \$255,591 thousand and \$226,356 thousand, respectively.

The Group issued 170 thousand shares, amounting to \$3,412 thousand, as employee stock option, with the approval of the board on April 15, 2022. Thereafter, the Group issued 1,014 thousand shares, with a par value of \$10 per share, for a total of \$10,141 thousand, with the base date set on July 12, 2022, based on a resolution approved during the shareholders' meeting held on June 17, 2022.

In 2022, the Group's employees subscribed 8 thousand shares of common stock, at an exercise price of \$11.7 per share, for a total of \$94 thousand, with the base date set on April 15, 2022.

The Group issued 1,170 thousand ordinary shares, at a par value and an issuance price of \$10 and \$102 per share, respectively, amounting to \$119,340 thousand, with the base date set on August 12, 2022, based on the resolution approved during the board meeting held on July 8, 2022.

The Group issued 36 thousand shares, amounting to \$6,000 thousand, as employee remuneration, with the base date set on July 21, 2023, based on the resolution approved during the board meeting held on May 24, 2023.

On May 12 and July 21, 2023, the Group's employees subscribed 218 thousand and 164 thousand shares of common stock, at the exercise prices of \$10 and \$13.32 per share, totaling \$2,185 thousand and \$2,184 thousand, with the base dates set on May 12 and July 21, 2023, respectively.

Notes to the Consolidated Financial Statements

For its initial public offering, the Group issued 2,505 thousand shares, of which, the public offering price amounted to \$82 per share and bidding auction price amounted to \$95.01 per share. The entire issued shares above had a par value of \$10 per share, totaling \$227,574 thousand, with the base date set on November 7, 2023, based on the resolution approved during the board meeting held on July 21, 2023.

(ii) Capital surplus

The balances of capital surplus as of December 31, 2023 and 2022, were as follows:

	December 31, 2023		December 31, 2022	
Share capital	\$	334,182	116,084	
Employee share options		2,957	2,974	
	\$	337,139	119,058	

According to the R.O.C. Company Act, capital surplus can only be used to offset a deficit, and only the realized capital surplus can be used to increase the common stock or be distributed as cash dividends. The aforementioned realized capital surplus includes capital surplus resulting from premium on issuance of capital stock and earnings from donated assets received. According to the Regulations Governing the Offering and Issuance of Securities by Securities Issuers, capital increases by transferring capital surplus in excess of par value should not exceed 10% of the total common stock outstanding.

(iii) Retained earnings

The Company's article of incorporation stipulates that Company's net earnings should first be used to offset the prior years' deficits, if any, before paying any income taxes. Of the remaining balance, 10% is to be appropriated as legal reserve, and then any remaining profit together with any undistributed retained earnings shall be distributed according to the distribution plan proposed by the Board of Directors and submitted to the stockholders' meeting for approval. The Company's Board of Directors is authorized to distribute cash dividends, and then report to the board of shareholders.

The distribution of cash dividends requires an approval from the Company's board before reporting it at the shareholders' meeting.

1) Legal reserve

According to the R.O.C. Company Act the Company must retain 10% of its after-tax annual earnings as legal reserve until such retention equals the amount of total capital. When a company incurs no loss, it may, pursuant to a resolution by a shareholders' meeting, distribute its legal reserve by issuing new shares or by distributing cash, and only the portion of legal reserve which exceeds 25% of capital may be distributed.

Notes to the Consolidated Financial Statements

2) Special reserve

In accordance with Permit No. 1010012865 as issued by the Financial Supervisory Commission on April 6, 2012, a special reserve equal to the debit balance of unrealized loss on financial instruments in the stockholders' equity is appropriated from unappropriated retained earnings pursuant to Article No.41 of the Securities and Exchange Act. When appropriating a special reserve for the first time, it is initially appropriated from current earnings and any deficiency is appropriated from the undistributed earnings of prior years. For the second year and years thereafter, the increase or decrease in the balance of unrealized loss on financial instruments in subsequent year, as shown in the statement of changes in stockholders' equity, is either subject to further appropriation for special reserve, or reversed to retained earnings.

3) Earnings distribution

Earnings distribution for 2022 and 2021 was decided by the resolution adopted, at the general meeting of shareholders held on March 24, 2023 and June 17, 2022, respectively. The relevant dividend distributions to shareholders were as follows:

	2022		2021		
		ount per share	Total amount	Amount per share	Total amount
Dividends distributed to ordinary shareholders:					
Cash	\$	5.70	130,354	4.00	81,126
Shares	\$	-	-	0.50	10,141

(iv) Other equity accounts, net of tax

		differences on translation of foreign financial statements		
Balance on January 1, 2023	\$	4,371		
Exchange differences on translation of foreign financial statements, net of tax		(1,821)		
Balance on December 31, 2023	\$	2,550		
Balance on January 1, 2022	\$	(1,147)		
Exchange differences on translation of foreign financial statements, net of tax		5,518		
Balance on December 31, 2022	\$	4,371		

Exchange

Notes to the Consolidated Financial Statements

(m) Share-based payment

(i) Employee stock option plan

As of December 31, 2023 and 2022, the Group had the following share-based payment arrangements:

	Equity-	settled
	Employee stock options	Employee stock options
Fair value at grant date	2020.04.01	2022.01.01
Number of shares granted	563 thousand shares	525 thousand shares
Contract term	4 years	4 years
Recipients	Employee	Employee
Vesting conditions	1. After 18 months from the expiration of fair value at grant date, the employee may exercise up to 50% of the number of employee stock options.	1. After 18 months from the expiration of fair value at grant date, the employee may exercise up to 50% of the number of employee stock options.
	2. After 36 months from the expiration of fair value at grant date, the employee may exercise up to 100% of the number of employee stock options.	2. After 36 months from the expiration of fair value at grant date, the employee may exercise up to 100% of the number of employee stock options.

1) Determining the fair value of equity instruments granted

The Group used the Black-Scholes pricing model in measuring the fair value of the share-based payment at the grant date as follows:

	2022		2021	
	Employee stock options	Employee stock options	Employee stock options	Employee stock options
	Vesting term (18 months)	Vesting term (36 months)	Vesting term (18 months)	Vesting term (36 months)
Fair value at grant date	\$ 4.69	5.17	7.83	8.23
Share price at grant date	-	-	-	-
Exercise price	22.00	22.00	19.00	19.00
Expected volatility (%)	26.64 %	6 26.27 %	24.54 %	24.63 %
Expected life (years)	2.75	3.50	2.75	3.50
Risk-free interest rate (%)	0.49 %	6 0.52 %	0.40 %	0.40 %

Notes to the Consolidated Financial Statements

2) Relevant information of employee stock option plans

Details of the employee stock options are as follows:

	2023		2022		
	Employee sto	ock options	Employee stock options		
	Weighted		Weighted		
	average exercise price	Number of options	average exercise price	Number of options	
Outstanding at January 1	15.11	723	11.70	241	
Granted during the year	-	-	22.00	525	
Forfeited during the year	(11.71)	(31)	(22.00)	(35)	
Exercised during the year	(11.44)	(382)	(11.70)	(8)	
Outstanding at December 31	-	310	15.11	723	
Exercisable at December 31	-	73	-		

3) Compensation cost

The Company's compensation cost for the year 2023 and 2022 due to stock option plan were \$752 thousand and \$1,853 thousand.

(ii) Shares of capital increase by cash reserved for employee subscription

The Group conducted a cash capital increase by issuing new shares, of which, 375 thousand of the total shares were reserved for employees subscription, with the approval of the board on July 21, 2023.

The aforesaid information on the share-based payment was as follow:

	Equity-settled
	Shares of capital increase by cash reserved for employee subscription
Fair value at grant date	2023.11.07
Number of shares granted	375 thousand shares
Contract term	9 days
Recipients	All employee
Vesting conditions	Immediately vested

Notes to the Consolidated Financial Statements

1) Parameter of the fair value of equity instruments granted

The Group used the Black-Scholes pricing model in measuring the fair value of its share-based payment at the grant date, with the parameter as follows:

	2023.11.07 Shares of capital increase by cash reserved for employee subscription
Fair value at grant date	Immediately vested \$ 22.99
Share price at grant date	104.97
Exercise price	82
Expected volatility (%)	43.14%
Risk-free interest rate (%)	1.07%

2) Relevant information of employee stock option

Details of the employee stock options are as follows:

	Shares of capi reserved	2023 tal increase by cash for employee scription
	Weighted average exercise price	Number of options
Outstanding at January 1	\$ -	-
Granted during the year	82.	00 375
Forfeited during the year	-	-
Exercised during the year	(82.	00) (375)
Outstanding at December 31	-	
Exercisable at December 31	-	

3) Compensation cost

The Company's compensation cost for the year 2023 due to stock option plan was \$8,621 thousand.

Notes to the Consolidated Financial Statements

(n) Earnings per share

The details on the calculation of basic earnings per share and diluted earnings per share are as follow

(i) Basic earnings per share

Profit attributable to ordinary shareholders of the Company	\$	2023 104,861	2022 178,257
		2023	2022
Issued ordinary shares at 1 January	\$	22,636	20,274
Effect of shares dividends		-	1,014
Effect of employee share bonus		16	122
Effect of exercise of share options		236	7
Effect of issuance of new shares by cash capital increased		377	455
Weighted average number of ordinary shares at 31 December		23,265	21,872
Basic earnings per share	\$	4.51	8.15
(ii) Diluted earnings per share

	Revenue from sales of peripheral	products a	and services		70,707	84,979
			9	§	1,054,805	1,281,909
(ii)	Contract balances					
		Dec	cember 31, 2023		ember 31, 2022	January 1, 2022
	Accounts receivable	\$	62,587		90,578	73,123
	Less: allowance for impairment		(2,693)		(14,269)	(4,398)
	Total	\$	59,894		76,309	68,725
		Dec	cember 31, 2023		ember 31, 2022	January 1, 2022
	Contract liabilities	\$	32,816		15,907	40,908

The contract liabilities primarily relate to the advance consideration received from product sales, which will be transferred to revenue when the related products are delivered to customers.

For details on accounts receivables and allowance for impairment, please refer to note 6(c).

The amount of revenue recognized for the years ended December 31, 2023 and 2022 that was included in the contract liability balance at the beginning of the period were \$12,602 thousand and \$40,330 thousand, respectively.

(p) Employee compensation and directors' and supervisors' remuneration

In accordance with the articles of incorporation the Company should contribute no less than 1% of the profit as employee compensation and less than 1% as directors' and supervisors' remuneration when there is profit for the year. However, if the Company has accumulated deficits, the profit should be reserved to offset the deficit. The recipients of shares and cash may include the employees of the Company's affiliated companies who meet certain conditions.

Notes to the Consolidated Financial Statements

For the years ended December 31, 2023 and 2022, the Company estimated its employee remuneration amounting to \$17,380 thousand and \$34,539 thousand, respectively; and its directors' and supervisors' remuneration both amounting to \$1,000 thousand, respectively. The estimated amounts mentioned above are calculated based on the net profit before tax, excluding the remuneration to employees, directors and supervisors of each period, multiplied by the percentage of remunerations to employees, directors and supervisors as specified in the Company's articles. These remunerations were expensed under operating costs or operating expenses during 2023 and 2022. The remunerations of 36 thousand shares were calculated based on the closing price of \$166.42 at the previous day of the board meeting held on March 24, 2023. For further information, please refer to the TWSE website. There was no difference between the actual and estimated amounts in 2023 and 2022.

(q) Non-operating income and expenses

(i) Interest income

The details of interest income were as follows:

	2023	2022
Interest income from bank deposits	\$ 5,019	745
Other interest income	 55	25
	\$ 5,074	770

(ii) Other income

The details of other income were as follows:

	2023	2022
Government grants	\$ 976	1,024
Other income	 866	801
	\$ 1,842	1,825

(iii) Other gains and losses

The details of other gains and losses were as follows:

	2023	2022
Losses on disposals of property, plant and equipment	\$ (17)	(6)
Gain from lease modifications	220	1,344
Foreign currency exchange (losses) gain	(4,523)	5,060
Others	 (285)	(61)
	\$ (4,605)	6,337

Notes to the Consolidated Financial Statements

(iv) Finance costs

The details of finance costs were as follows:

	•	2023	2022
Amortization interest of lease liabilities	\$	1,083	436
Other finance costs		1	2
	\$	1,084	438

(r) Financial instruments

(i) Categories of financial instruments

1) Financial assets

	December 31, 2023		December 31, 2022	
Financial assets at amortized cost (loans and receivables)				
Cash and cash equivalents	\$	480,939	458,385	
Financial assets at amortised cost		82,904	-	
Accounts receivable		59,894	76,309	
Other receivables		5,957	3,369	
Other financial assets		147,384		
Total	\$	777,078	538,063	

2) Financial liabilities

	December 31, 2023		December 31, 2022	
Financial liabilities at amortized cost				
Accounts payable	\$	77,769	88,048	
Other payables		67,521	98,438	
Lease liabilities		48,708	29,691	
Total	\$	193,998	216,177	

(ii) Credit risk

1) Credit risk exposure

The carrying amount of financial assets represents the maximum amount exposed to credit risk. December 31, 2023 and 2022, the Group's exposure to credit risk and the maximum exposure were mainly from accounts receivable and other receivables, the amount is \$65,851 thousand, \$79,678 thousand respectively.

Notes to the Consolidated Financial Statements

2) Concentration of credit risk

The major customers of the Group are centralized in the high-tech computer industry. To minimize credit risk, the Group periodically evaluates the Group's financial positions and the possibility of collecting accounts receivables. Besides, the Group monitors and reviews the recoverable amount of the accounts receivables to ensure the uncollectible amount are recognized appropriately as impairment loss. As of December 31, 2023 and 2022, the accounts receivable of the Group were from multiple customers. Thus, credit risk is not significantly centralized.

3) Credit risk of receivables

For credit risk exposure of notes and accounts receivables, please refer to note 6(c).

Other financial assets at amortized cost includes other receivables.

All of other receivables are considered to have low risk, and thus, the impairment provision recognized during the period was limited to 12 months expected losses. Regarding how the financial instruments are considered to have low credit risk, please refer to note 4(g). For the years ended December 31, 2023 and 2022, no allowance for impairment were provided because there was no indication of credit-impaired for other receivables.

(iii) Liquidity risk

The following table shows the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements.

		arrying mount	Contractual cash flows	Within 6 months	6-12 months	1-2 years	2-5 years	More than 5 years
December 31, 2023								
Non-derivative financial liabilities								
Accounts payable	\$	77,769	(77,769)	(77,769)	-	-	-	-
Other payables		67,521	(67,521)	(67,521)	-	-	-	-
Lease liabilities	_	48,708	(50,187)	(9,791)	(9,566)	(16,425)	(14,405)	
	\$	193,998	(195,477)	(155,081)	(9,566)	(16,425)	(14,405)	
December 31, 2022	_	,						
Non-derivative financial liabilities								
Accounts payable	\$	88,048	(88,048)	(88,048)	-	-	-	-
Other payables		98,438	(98,438)	(98,438)	-	-	-	-
Lease liabilities		29,691	(30,676)	(6,533)	(5,505)	(14,036)	(3,197)	(1,405)
	\$	216,177	(217,162)	(193,019)	(5,505)	(14,036)	(3,197)	(1,405)

The Group does not expect the cash flows included in the maturity analysis to occur significantly earlier or at significantly different amounts.

Notes to the Consolidated Financial Statements

(iv) Currency risk

1) Exposure to foreign currency risk

The Group's significant exposure to foreign currency risk were as follows:

	 Dec	ember 31, 2023		December 31, 2022			
Eigeneigt gesch	oreign irrency	Exchange rate	NTD	Foreign currency	Exchange rate	NTD	
Financial assets							
Monetary items							
USD	\$ 3,183	30.705	97,734	10,356	30.710	318,033	
Financial liabilities							
Monetary items							
USD	1,179	30.705	36,201	201	30.710	6,173	

2) Sensitivity analysis

The Group's exposure to foreign currency risk arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents, accounts and other receivables, loans and borrowings and accounts and other payables that are denominated in foreign currency. A weakening of 1% of the NTD against the USD as of December 31, 2023 and 2022 would have increased the net income before tax by \$615 thousand and \$3,119 thousand, respectively. The analysis assumes that all other variables remain constant. The analysis is performed on the same basis for 2023 and 2022.

3) Foreign exchange gain and loss on monetary items

Since the Group has many kinds of functional currency, the information on foreign exchange gain (loss) on monetary items is disclosed by total amount. For the years ended December 31, 2023 and 2022, foreign exchange loss (including realized and unrealized portions) amounted to \$4,523 thousand and \$5,060 thousand, respectively.

(v) Interest rate analysis

Please refer to the notes on liquidity risk management and interest rate exposure of the Group's financial assets and liabilities.

Since the Group does not have any borrowing at variable rates, the Group's net income would not be affected by the change in interest rates for the years ended December 31, 2023 and 2022

(Continued)

Notes to the Consolidated Financial Statements

(vi) Fair value of financial instruments

1) Fair value hierarchy

The financial assets at fair value through other comprehensive income is measured on a recurring basis. The carrying amount and fair value of the Group's financial assets and liabilities, including the information on fair value hierarchy were as follows; however, except as described in the following paragraphs, for financial instruments not measured at fair value whose carrying amount is reasonably close to the fair value and lease liabilities, disclosure of fair value information is not required:

	December 31, 2023

Notes to the Consolidated Financial Statements

(s) Financial risk management

(i) Overview

The Group have exposures to the following risks from its financial instruments:

- 1) credit risk
- 2) liquidity risk
- 3) market risk

The following likewise discusses the Group's objectives, policies and processes for measuring and managing the above mentioned risks. For more disclosures about the quantitative effects of these risks exposures, please refer to the respective notes in the accompanying consolidated financial statements.

(ii) Structure of risk management

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. The Board has established the Chairman's office and Group operations center, which are responsible for developing and monitoring the Group's risk management policies.

The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Board of Directors oversees how management monitors compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Board of Directors is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Board of Directors.

(iii) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customer.

Notes to the Consolidated Financial Statements

1) Accounts and other receivables

The Group has established a credit policy under which each new customer is analyzed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered. The Group's review includes external ratings, when available, and, in some cases, bank references. Purchase limits are established for each customer and represent the maximum open amount without requiring approval from the Group; these limits are reviewed regularly. No collateral required for accounts and other receivable. Customers that fail to meet the Group's benchmark creditworthiness may transact with the Group only on a prepayment basis.

Clients who transaction with the Group has few experiences on default losses. When monitoring customers' credit risk, customers are grouped according to its credit characteristics, including whether it is an individual or a legal entity, geographical distinction, industry, aging schedule, maturity date and previously existing financial difficulties. Customers who are rated as high risk are classified as restricted and these customers may transact with the Group only on a prepayment basis.

The Group established an impairment allowance that represents its estimate of incurred losses in respect of accounts and other receivables, as well as investments. Major components of this impairment allowance are specific losses related to individually significant exposure and collective losses which have incurred but have not been identified. The collective losses are based on historical payment experience of similar financial assets.

2) Investments

The exposure to credit risk for the bank deposits, fixed income investments, and other financial instruments is measured and monitored by the Group's finance department. The Group only deals with banks, other external parties, corporate organizations, government agencies and financial institutions with good credit rating. The Group does not expect any counterparty above fails to meet its obligations hence there is no significant credit risk arising from these counterparties.

3) Guarantees

The Group's policy is to provide financial guarantees only to wholly owned subsidiaries.

As of December 31, 2023 and 2022, the Group did not provide financial guarantees to other third parties.

(iv) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it always has sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

Notes to the Consolidated Financial Statements

The Group depend its accounting policy to cost its products and services, which assists it in monitoring cash flow requirements and optimizing its cash return on investments. The Group aims to maintain the level of its cash and cash equivalents at an amount in excess of expected cash flows on financial liabilities over the succeeding 60 days. This excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

(v) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, and equity prices, will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

The Group buys and sells derivatives, and also incurs financial liabilities, in order to manage market risk. All such transactions are carried out within the guidelines set by the Board of Directors.

1) Currency risk

The Group is exposed to currency risk on sales, purchases, and borrowings that are denominated in a currency other than the respective functional currencies of the Group's entities, primarily the NTD, USD, and CNY. The currencies used in these transactions are the NTD, USD, and CNY.

Loan interest is denominated in the currency of the loan. Generally, the currency of the borrowings is the same as the currency of the cash flows from operating activities, which is mainly NTD and USD. As a result, economic hedging is provided, and without signing derivatives, so the Group doesn't apply hedge accounting.

2) Interest rate risk

The Group holds floating interest rate of assets and liabilities, and thus suffer from cash flow interest rate risk exposure. The detail of floating interest rate of the Group's assets and liabilities, please refer to note "liquidity risk management".

3) Other market price risk

The Group doesn't sign merchandise contract except for meeting the expected consumption and sales demand.

(t) Capital management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence, and to sustain the future development of the business. The capital includes ordinary shares, capital surplus and retained earnings. The Board monitors the return on capital and controls the level of common stock dividends.

Notes to the Consolidated Financial Statements

The Group monitors funds by regularly review debt-to-equity ratio. As of December 31, 2023 and 2022, the Group's debt-to-equity ratio is as follows:

	December 31, 2023		December 31, 2022	
Total liabilities	\$	251,840	285,753	
Less: cash and cash equivalents		(480,939)	(458,385)	
Net debt	\$	(229,099)	(172,632)	
Total equity	\$	854,376	634,374	
Adjusted equity	\$	625,277	461,742	
Debt-to-equity ratio	<u> </u>	(36.64)%	(37.39)%	

The cash capital increase of \$227,574 thousand in July 2023 resulted in the increase of \$227,574 thousand in total equity and a change in the debt-to-equity ratio of the Group on December 31, 2023.

- (i) The information on major shareholders, which is provided by the Taiwan Depository & Clearing Corporation, summarized the shareholders who held over 5% of total non-physical common stocks and preferred stocks (including treasury stocks) on the last business date of each quarter. The registered non-physical stocks may be different from the capital stocks disclosed in the financial statement due to different calculation basis.
- (ii) If shares are entrusted, the above information regarding such shares will be revealed by each trustors of individual trust account. The shareholders holding more than 10% of the total shares of the company should declare insider's equity according to Securities and Exchange Act. The numbers of the shares declared by the insider include the shares of the trust assets which the insider has discretion over use. For details of the insider's equity announcement please refer to the TWSE website.

Notes to the Consolidated Financial Statements

(14) Segment information:

(a) Information about reportable segments and their measurement and reconciliations

The main operating activities of the Group are manufacturing, processing and trading of industrial computers, which is a single industry. The operating decision maker uses the region as the basis for the company's overall operating activities, decision making and performance evaluation, so the operating and reporting departments are distinguished by region.

The Group uses the internal management report that the chief operating decision maker reviews as the basis to determine resource allocation and make a performance evaluation. The internal management report includes profit before taxation, but not including any extraordinary activity and foreign exchange gain or losses because taxation, extraordinary activity, and foreign exchange gain or losses are managed on a group basis, and hence they are not able to be allocated to each reportable segment. In addition, not all reportable segments include depreciation and amortization of signification maker.

The operating segment accounting policies are similar to those described in note 4 "significant accounting policiescant non-cash items. The reportable amount is similar to that in the report used by the chief operating de" except for the recognition and measurement of pension cost, which is on a cash basis.

The Group treated intersegment sales and transfers as third-party transactions. They are measured at market price.

The Group's operating segment information and reconciliation are as follows:

_		De	ecember 31, 202.	3	
	Segment Taiwan	Segment United States	Segment Mainland China	Reconciliation and elimination	Total
Revenue					
Revenue from external customers\$	614,644	276,080	164,081	-	1,054,805
Intersegment revenues	225,137			(225,137)	
Total revenue §	839,781	276,080	164,081	(225,137)	1,054,805
Reportable segment profit or loss \$	127,876	23,970	14,443	(30,817)	135,472

		De	ecember 31, 2022	2	
	Segment Taiwan	Segment United States	Segment Mainland China	Reconciliation and elimination	Total
Revenue	_				_
Revenue from external customers\$	763,448	274,505	243,956	-	1,281,909
Intersegment revenues	277,739			(277,739)	
Total revenue \$_	1,041,187	274,505	243,956	(277,739)	1,281,909
Reportable segment profit or loss \$	220,335	31,787	6,277	(22,685)	235,714

The measured amounts of the Group's assets/liabilities of the reportable segments are not available for operational decision making, and therefore the measured amounts of assets/liabilities are not disclosed.

Notes to the Consolidated Financial Statements

(b) Product and service information

Revenue from the external customers of the Group was as follows:

Product and service	2023		2022
Industrial computers	\$	984,098	1,196,930
Peripheral products and services		70,707	84,979
Total	\$	1,054,805	1,281,909

(c) Geographic information

In presenting information on the basis of geography, segment revenue is based on the geographical location of customers and segment assets are based on the geographical location of the assets.

Geographical information	 2023	
Non-current assets:		
Taiwan	\$ 65,431	31,680
United States	7,848	8,946
Mainland China	 3,915	6,312
Total	\$ 77,194	46,938

Non-current assets include property, plant and equipment, right-of-use assets, intangible assets, refundable deposits, and other non-current assets, not including financial instruments, and deferred tax assets.

(d) Major customers

The Group's sales to a single customer did not reach more than 10% of operating revenues, therefore, no significant customer information was provided.
